

COMPANY PROFILE

INTRODUCTION:

Qualimark Machines Pvt. Ltd. is an **ISO 9001:2015 Certified Company**. We are a well-known designer, manufacturer and exporter of World's most successful **Khakhra & Chapati Making Machines** since our early start in the year of 2001.

One of the main things which differentiate us from others is that we are purely innovation driven company, having our Manufacturing unit spreaded over **25,000 Sq. Ft.** & **state of the art R&D center in 5000 Sq. Ft.** We rigorously do developments and up gradations in our products and bring ground breaking innovations to supply world class problem solving products to our customers. We promise innovative high tech products characterized by tremendous quality and reliability. Continuous development work help customers to maximize their competitive ability. **You can also profit from 16 years of Qualimark technological leadership in Khakhra & Chapati making machinery.** We endeavor to keep preserving on our conventional power and fulfilling our vision of becoming a global leader, keen to professionalism and superiority while striving for the highest level of satisfaction for our clients.

The company is continuously rising on the growth chart and setting very high quality standards.

Qualimark has maintained focus on **"Customer First"** attitude by investing in delivering quality products, service and value to customers. The values which we possess are integrity, consistency, innovation and customer focus that have earned us a priceless goodwill in the domestic and international market.

We have been manufacturing these machines for **16 Years** and have already installed more than **1000⁺** machines across the Globe. Our successful installations are in more than **16 States** in India and in **14 Countries** across the **Globe** like **USA, Canada, UK, New Zealand, Singapore, Bangladesh, Dubai, Abu Dhabi, Qatar, Oman, South Africa, Kenya, Botswana & Brunei.**

Welcome to **Qualimark**, a company **Where Quality Meets Expectations!**

BRIEF HISTORY:

Qualimark was founded by Mr. Naval Pithava; with his extra ordinary entrepreneur skills and the experience he gained, Naval Pithava established Qualimark for making fabrication jobs and sheet metal components. This venture was soon expanded with a professional approach and well-equipped tool room with all ultra-modern machines to match the international standards of quality. Qualimark was the pioneer to bring hydraulic sheer and hydraulic bending machine in Bharuch District.

As time flies, realizing the demand and the pace with which developments were taking place the need of manufacturing Construction Machinery Qualimark expanded its premises, recruited more staff and invested on Machinery to match the orders. The success in manufacturing construction machinery was followed by introduction of manufacturing food processing machineries.

Qualimark has originated with the view of extending pre-eminent and ultimate service to the customers for their appliances. The company is continuously rising on the growth chart and setting very high quality standards. The strict emphasis is on quality combined with the latest technology to offer its customers a competitive edge.

It provides Instant Service, conducts Periodical Service Camps, arranges Product Demos, participates in Exhibitions and Fairs, do Direct Marketing, and all services-that benefit the valuable customer.

Qualimark is poised to shoulder servicing of any of its product with vision to extend prompt service to their valued customers.

Qualimark VISION:

Our vision is to contribute significantly to the food processing industry by providing trusted machines which can help our users to solve their problems effortlessly by achieving optimum output. In the future, we see ourselves becoming the leader in the Khakhra Making & Chapati Making Machinery space by innovating on a continuous basis and focusing on product and service quality.

Qualimark MISSION:

Our mission is to delight our customers with our innovation driven and problem solving high quality products and superior customer service. We believe that continuous innovation in products is more important than anything else. Hence we aim to continuously innovate our products and ensure that our products showcase convenient and satisfactory user experience.

Qualimark STRATEGY:

Our business strategy is to leverage differentiation to create a mindshare among customers. Innovation driven customized solutions and impeccable services are our hallmarks. Our strong focus on Research & Development through continuous product development helps us better our existing offering and introduce new variants and new products on a regular basis.

OUR STRENGTHS:

- Highly equipped Machine tool-room consisting of all latest machines.
- Workmanship of our crew is commitment-bound.
- In-line setup of machines for fast processing of raw material at one end and Finished material at the other end.
- Highly trained, experienced and technically knowledgeable crew conversant with computer generated drawings.
- Transparency & Time bound services.

OUR TEAM:

Our team of experts comprises of professionals who have years of profound experience in their related domain of expertise. They are well versed with their responsibilities and are capable enough to successfully execute entire manufacturing procedure along with turnkey projects.

Our team of experts forms the backbone of our organization. Our technical team members maintain close vigilance over the entire production line in order to facilitate manufacturing of only high performing food processing machines and equipment. The production engineers strive hard to undertake every stage of the production procedure strictly in accordance with the stipulated standards. During this, they are significantly assisted by supervisors, allied technicians and skilled workforce to expedite the manufacturing process. Further, product designers remain consistently engaged in developing new designs as per the requirements of clients and market trends. In addition to this, our engineers are also given responsibilities to carry out turnkey projects at the site of clients and also provide installation and operational training to client's representatives.

CERTIFICATIONS & STANDARDS:

INFRASTRUCTURE:

Qualimark holds cutting edge manufacturing and R&D facility in its main manufacturing unit located at Bharuch, Gujarat. The necessary manufacturing facilities with latest machineries are installed in the company.

AWARDS & RECOGNITIONS:

Qualimark has won the prestigious '**Gujarat Government MSME Award**' for the category of "Innovation in Technology" for the year 2015.

Qualimark has been awarded the renowned '**Global Achievers Award**' for Business Excellence Category in 35th Indian Achiever's Summit 2013.

OUR QUALITY ASSURANCE:

We are an ISO 9001:2015 certified company and we always emphasize on laying focus on quality compliance for manufacturing technically improved food processing machines. In order to ensure production of only qualitative machines and equipment, we have employed competent quality assurance inspectors who maintain close watch over the whole production process. They endeavour to manage the production procedure in accordance with quality measures right from the stage when material of constructions are incorporated in the manufacturing line. Hence, they ensure that only superior grade raw material is used for manufacturing our products in order to deliver defect free equipment to clients. Some of the parameters on which they undertake quality tests are as follows:

- Rate of consumption of fuel
- Speed of machine
- Rotation per minute
- Finishing of outer body
- Lifting arrangement
- Hygienic quotient
- Processing capacity
- Functionality of various comprising units

Further, we have established and are consistent with quality standards as per the norms of industry which enable us to achieve complete client satisfaction.

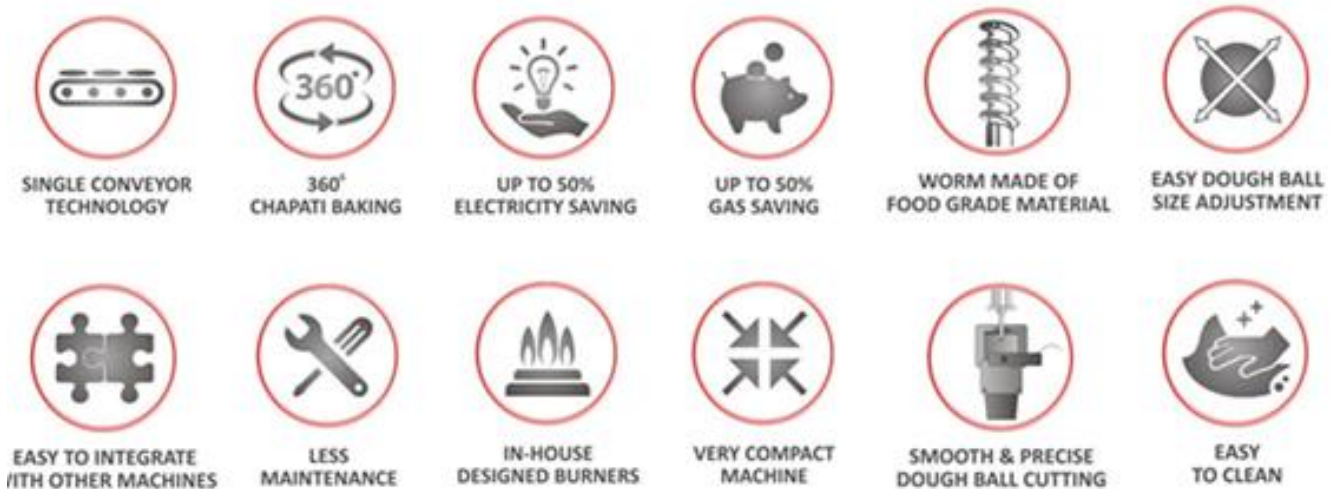

We are committed to provide precision engineered high performing food processing machinery which is manufactured from superior grade material by proficient incorporation of latest technology.

MANUFACTURING OF FOOD PROCESSING MACHINERY DIVISION RANGE OF PRODUCTS:

1. Khakhra Making & Roasting Machines:
 - Hydraulic Khakhra Making Machine
 - Khakhra Roasting Machines
 - Automatic Khakhra Roasting Machine
 - Semi Automatic Khakhra Roasting Machine
2. Chapati Making Machines:
 - Automatic Chapati Making Machine
 - Semi Automatic Chapati Making Machine
 - Chapati Pressing Machine
 - Chapati Puffer Table
3. Dough Ball Making Machine
4. Vacuum Packaging Machines:
 - Single Chamber Vacuum Packaging Machine
 - Double Chamber Vacuum Packaging Machine
5. Shrink Packaging Machine
6. Flour Kneading Machine
