# COMPANY INTRODUCTION

Qualimark Machines Pvt. Ltd. is a progressively-growing company, established in 2001, famous for introducing innovative and path-breaking Special Purpose Machinery products such as range of P.U.F Mould, Drum Door and Other Machinery for refrigeration industry. An ISO 9001:2015-certified company, Qualimark designs, manufactures and exports the technologically-superior special purpose machineries for refrigeration, food processing and various other industries all over the world. One of the main things which differentiate us from others is that we are purely innovation driven company, having our manufacturing unit spread over 25,000 sq.ft. & state of the art R&D center spread over 5000 sq. ft. We rigorously develop and upgrade our product range to bring ground breaking innovations and supply world-class products that solve problems of our customers. We promise innovative high tech products characterized by tremendous quality and reliability. Continuous development work help customers to maximize their competitive ability.

We have been manufacturing high-quality machines for **18 Years** and have already installed more than **1000+** machines across the Globe. Our successful installations are in more than **25 States** in India and in **21 Countries** across the globe.

We are delighted to introduce you to the world of **Qualimark**, a company **Where Quality Meets Expectations!**

## Awards & Recognitions

Qualimark has won the prestigious **GUJARAT GOVERNMENT 'Best MSME Award'** for the category of "Innovation in Technology" for the year 2015.

Qualimark has been awarded the renowned **'Global Achievers Award'** for Business Excellence Category in 35th Indian Achiever's Summit 2013.

## Certifications & Standards

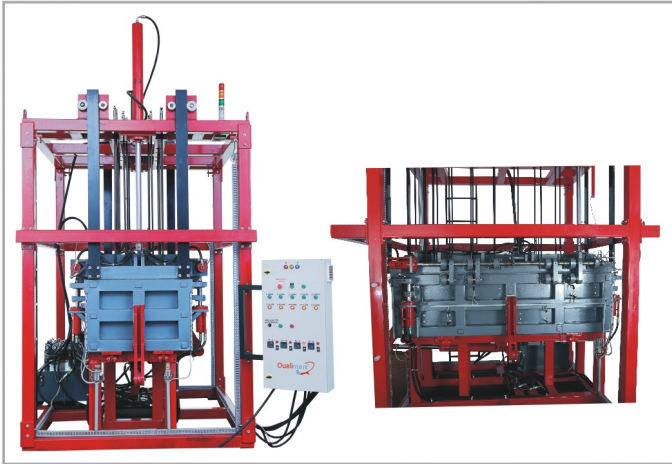

Our P.U.F Mould machinery range include various types of Moulds, Jigs, Lids and Cabinets machines for doors and other such appliances where PU insulation is required. The machinery includes P.U.F mould machines for cabinets which has capacity upto 600 ltr., water cooler cabinet upto 200 ltr. and P.U.F mould for various types of lids.

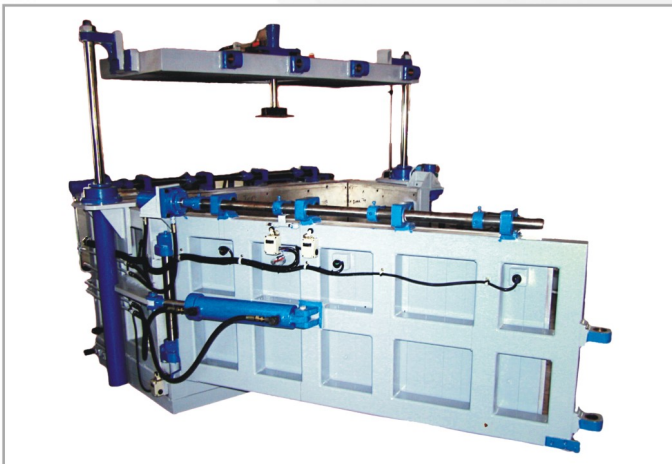

With more advance version, in order to save time and increase productivity with less main power we have solutions like drum door unit in which multiple door lids can be processed same time.

The machinery can be manufactured as per customer's specific needs according to their product size and shape.
